

TO: ALL GRP

FROM: THE GRP STRATEGIC PLAN WORKING GROUP

The dangers arising from:

anti-democratic, money-driven, 'representative' government
and a system of living based on maximizing profits

are never greater than when people mistake
a beam of light on the horizon for a new dawn.

Do the countless injustices that we see in our communities,
in our Commonwealth, and across the planet,
have a common nexus where they can be met head-on?

What do we as the GRP want to accomplish over the next few years?
Can the GRP build a vibrant political alternative to the duopoly?

Is the Commonwealth ready for 'real democracy' where the people
are the decision-makers and the problem-solvers?

What should the GRP do to be helpful and relevant to the problems
with which you and your community are struggling?

**THE GREEN-RAINBOW PARTY INVITES YOU
